

ASID Foundation
presents
Jubilaton '08

Through interior design research, scholarship and education, the ASID Foundation—**our Foundation**—was created to help address critical issues facing interior design and issues that affect the health, safety and welfare of our communities such as sustainable design, technology, design for learning environments and the needs of an aging population.

Your previous contributions have funded these Projects: scholarships, grants, awards, supporter of a major standards revision for CIDA (formerly FIDER), collaborative project with USGBC, major sponsor of The Green House (now on national tour!).

(Jubilaton, continued)

Mark your calendar for the ASID Foundation's Annual Fundraising Event: **JUBILATON 08!** This event, held during INTERIORS 08: The ASID Conference on Design, will be Friday, March 14 in New Orleans.

*The highlight of **Jubilaton 08** will be the **live and silent auction**. The purpose of our fundraiser is to raise money to fund new projects! As before, awards will be given to the top three ASID chapters who are responsible for raising the most money. Please help our chapter in bringing home first place! Our deadline is January 15.*

Last year, a week-long stay at an Alaskan cabin garnered a great deal of attention and was a fantastic money-maker for the event. Do we have one available? Any other fabulous ideas?

Contact your board by email for an Auction Donation Form that is to be submitted with each auction item. This will help assure that you and our chapter receives the appropriate acknowledgement.
